# 163	Name: <b>Parks Hwy</b>		Cause: <b>Human</b>	Admin: <b>L&amp;W</b>

Narrative: Good progress was made securing structures and mopping up in divisions A, B, C, D. Division Q crews secured line from H60 to the Parks Highway along yesterday's aerial firing perimeter, which tied into the Fish Creek Fire (2001) scar. Active fire behavior was observed on the east flank: running, torching and spotting. The fire is 25% contained. Actions planned for the next operational period include mop up, assess structure protection needs in the Clear / Anderson area, set up structure protection, prepare the dozerline for burn out operations, and patrol fire. The southeast flank of the fire is forecasted to be the most active with the current northwest winds. Securing division Q between the Parks Highway and the Old Fish Creek Fire (2001) scar is critical to protect the Anderson / Clear area before forecasted Northeast winds move in.
